http//

I certify that I created the above image

☒

Submit Wallpaper

Check that this is a real email

Drop down list with applicable licenses

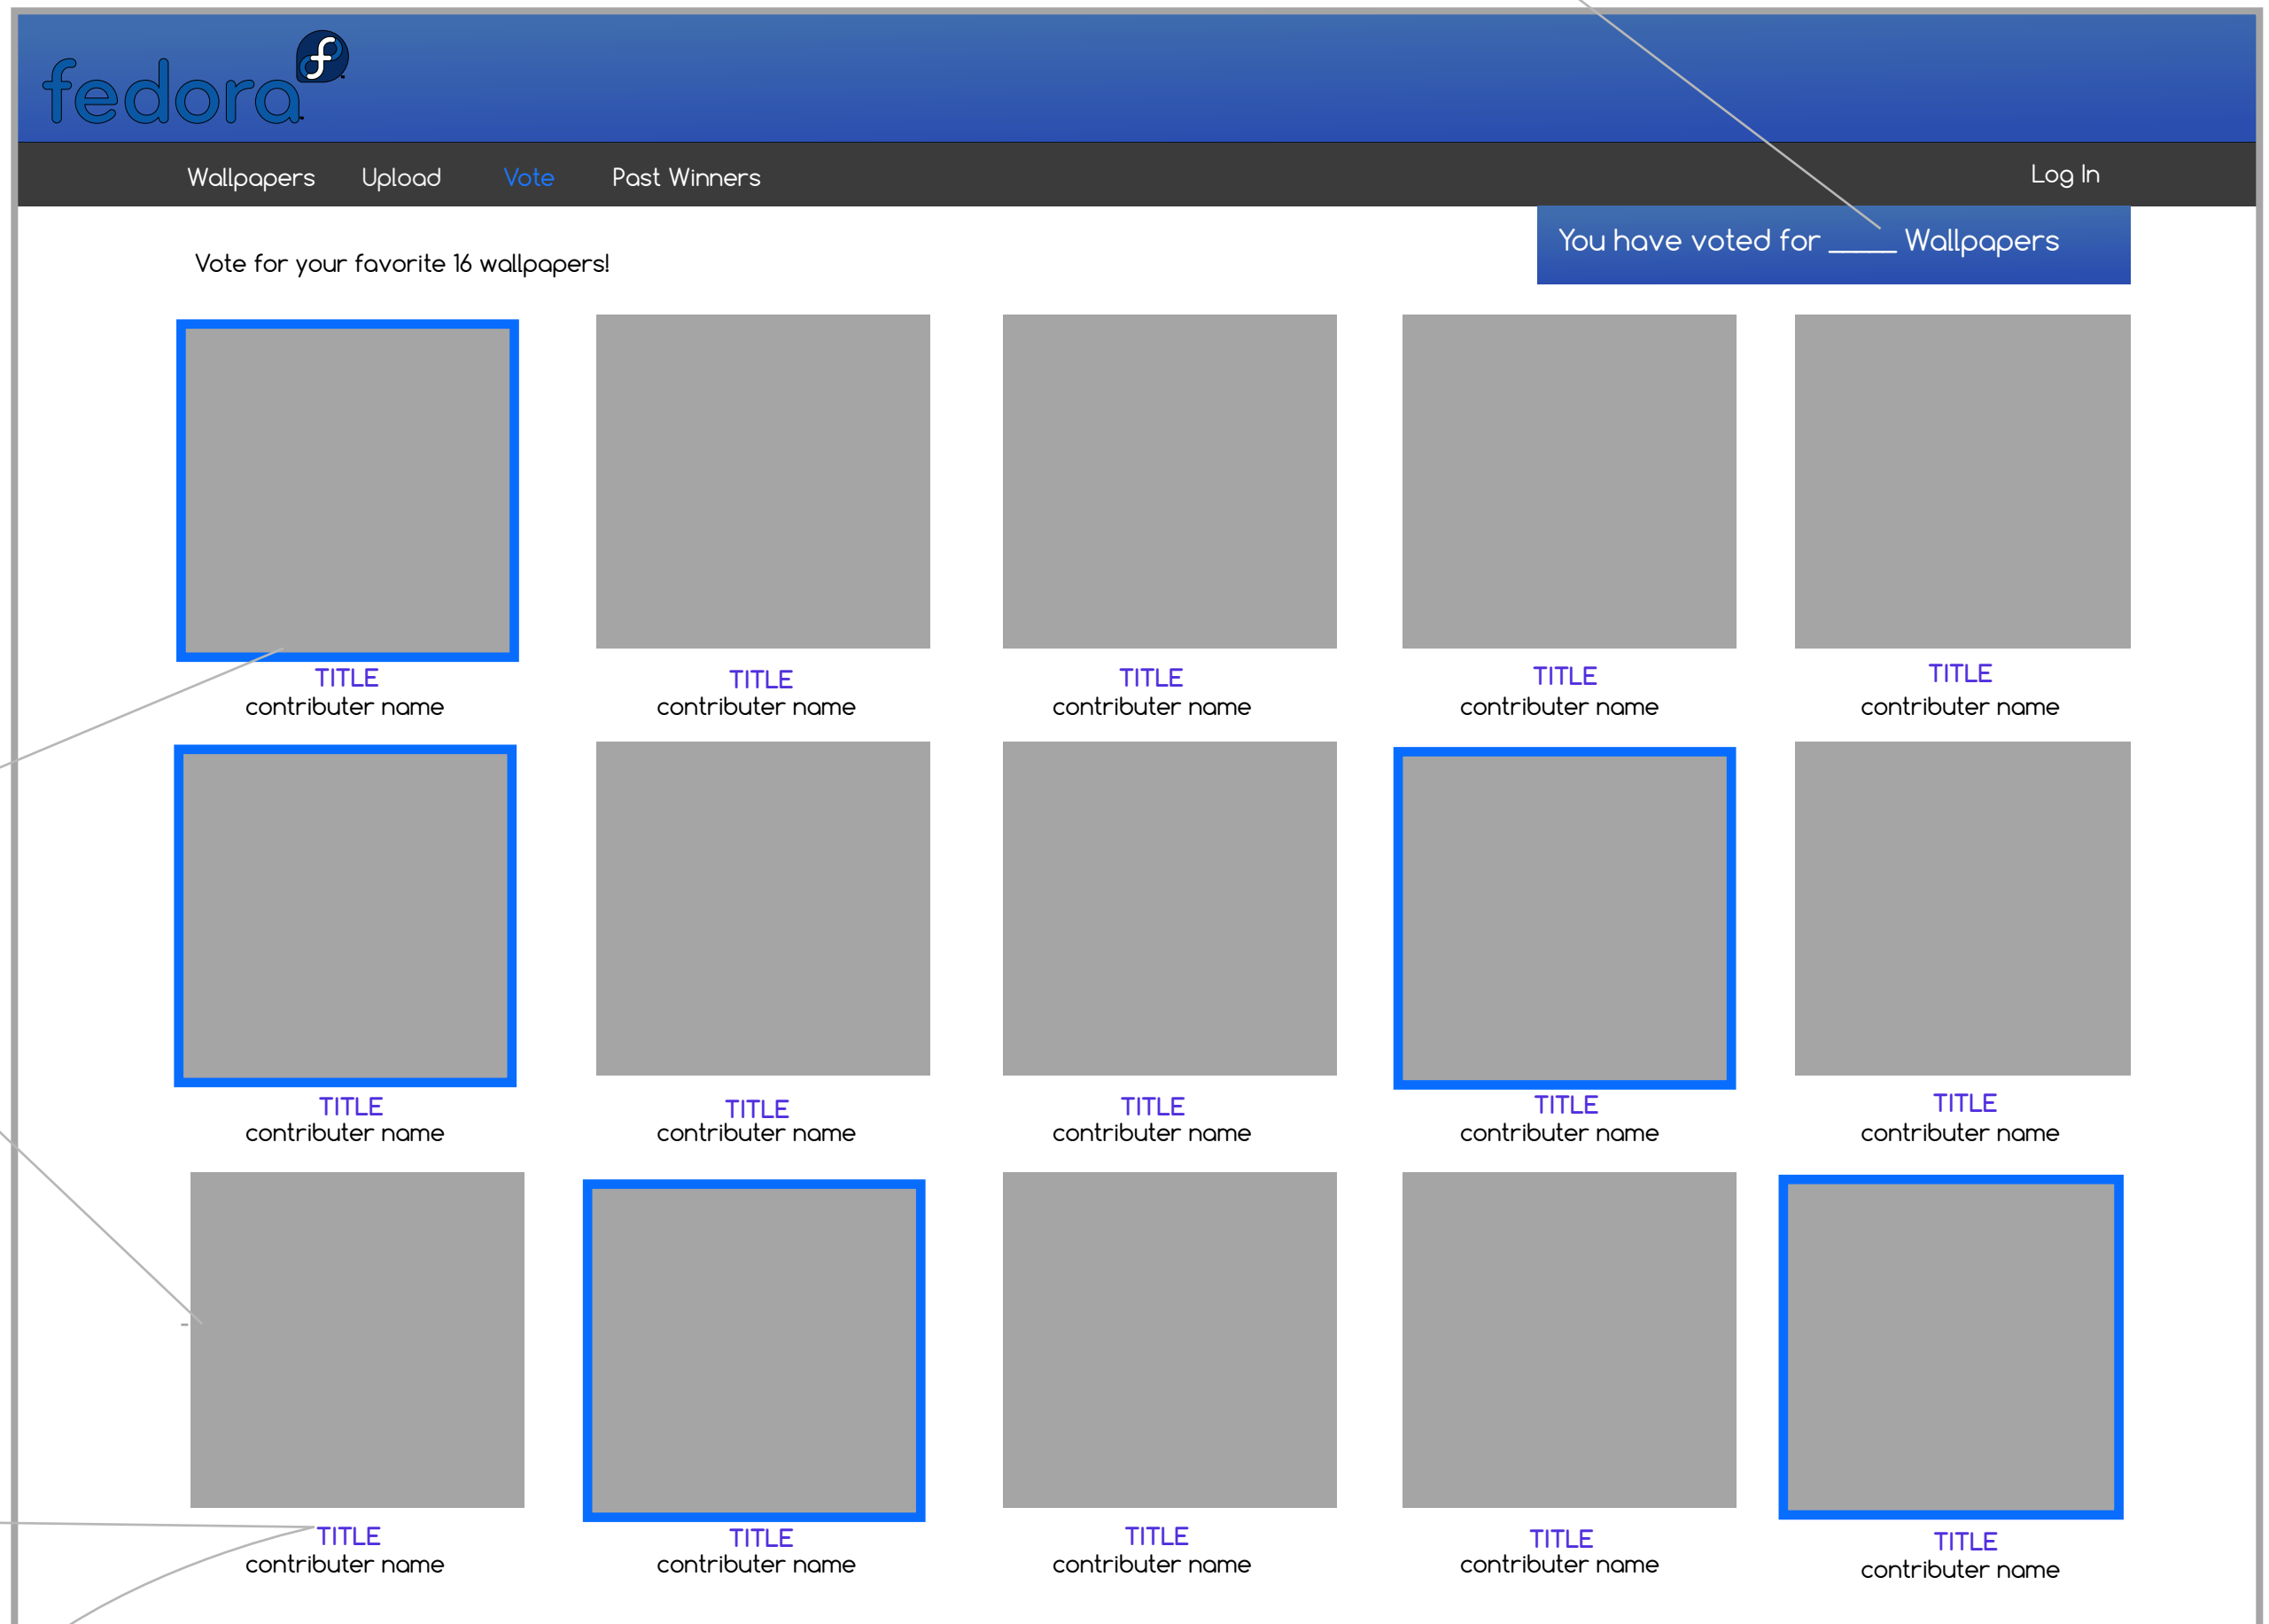

Link

Bring to dialog screen where user can select what file they want to upload

If the image is not the correct ratio it should be rejected and display the error that the creator must resize to image to correct proportions or it should not be allowed to be submitted

Voting

Widget in the window that tells you how many wallpapers you have selected

Click on thumbnail images to vote for the ones you like (can only choose five, if click again de-selects)

unselected thumbnail

clicking on the title will
bring the image into full
screen

Font color change to lighter blue and cursor change to pointer on hover so clear is also a clickable word

when click on "full size" background covered by a transparent dark blue and the image takes over most of the screen. click off of the picture to go back to viewing all of them

If Javascript is disabled, you can vote on wallpaper by a checkbox which will appear in the bottom right corner of the image thumbnail.

Lets you click between the different uploaded images at full size
