## Voting

you must be logged in to vote, if you click on vote tab and are not logged in it will instead link to the FAS login account page

Widget in the window that tells you how many wallpapers you have selected

you must be logged in to vote

Click on thumbnail images to vote for the ones you like (can only choose five, if click again de-selects)

unselected thumbnail

clicking on the arrow icons will bring the image into full screen

Blue dot shows what page you are on. —  
click on a grey dot to go to that # page

when click on "full size" background covered by a transparent dark blue and the image takes over most of the screen. click off of the picture to go back to viewing all of them

Send information about how many times wallpaper has been downloaded to marketing team. (Or maybe a n administrator can just see this info directly on the site)

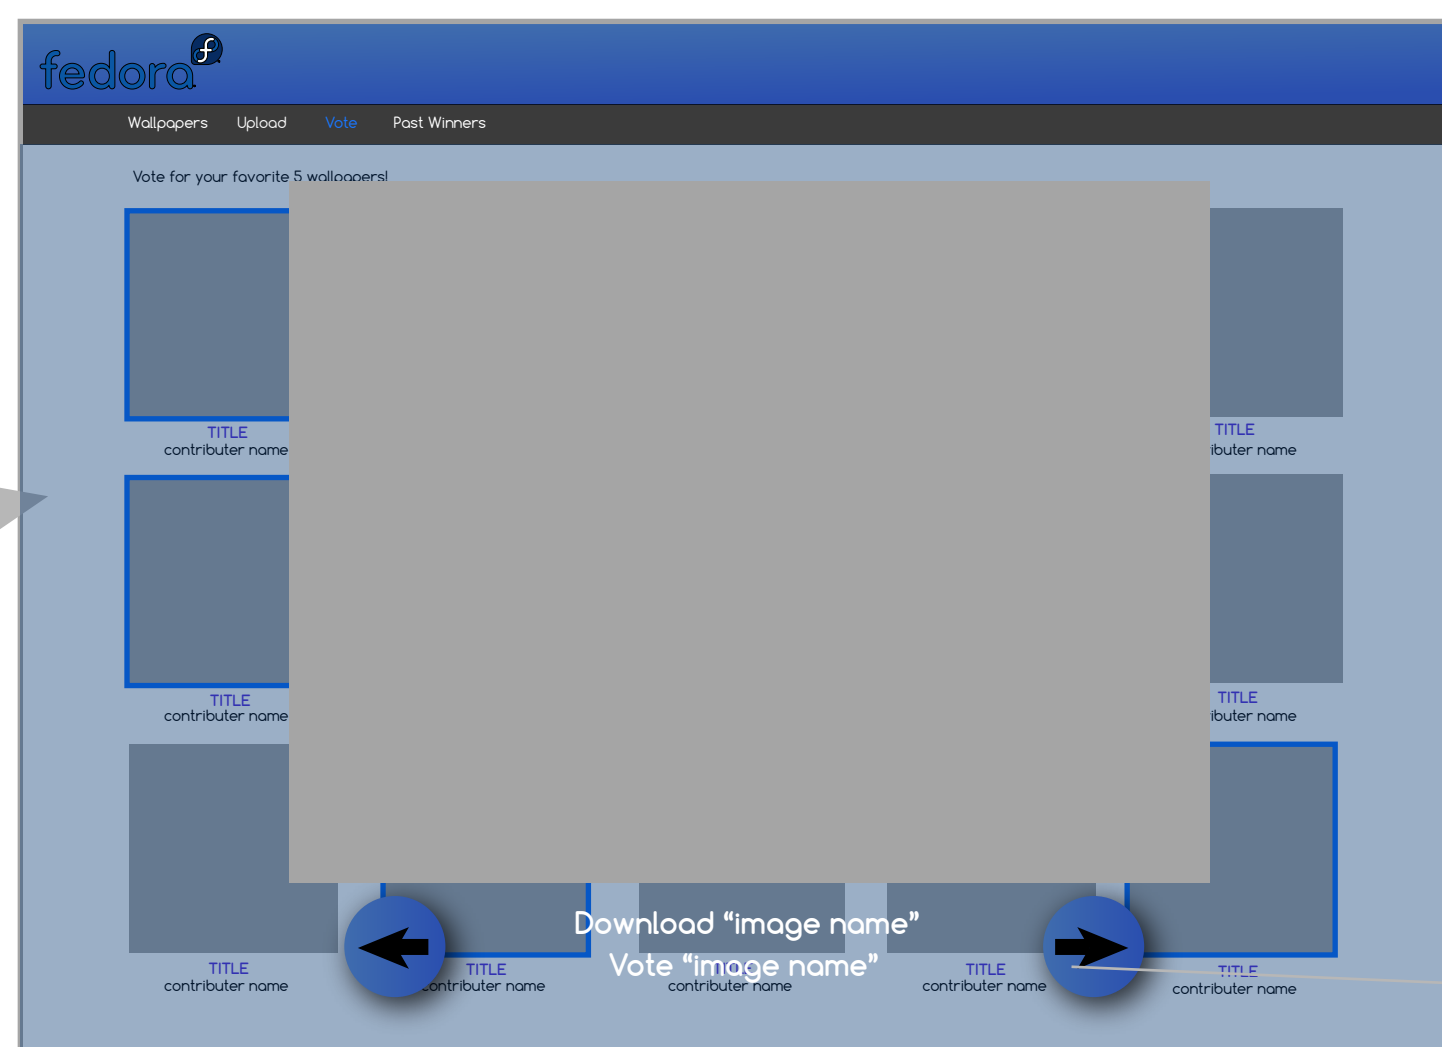

If you have voted for more than 16 wallpapers, this will take you to the second voting page.

If you have voted for 16 or less, this will finish the voting process, the page will refresh and at the top rather than saying "vote for your favorite 16 wallpapers!" it will read "thank you for voting!"

If Javascript is disabled, you can vote on wallpaper by a checkbox which will appear in the top right corner of the image thumbnail.

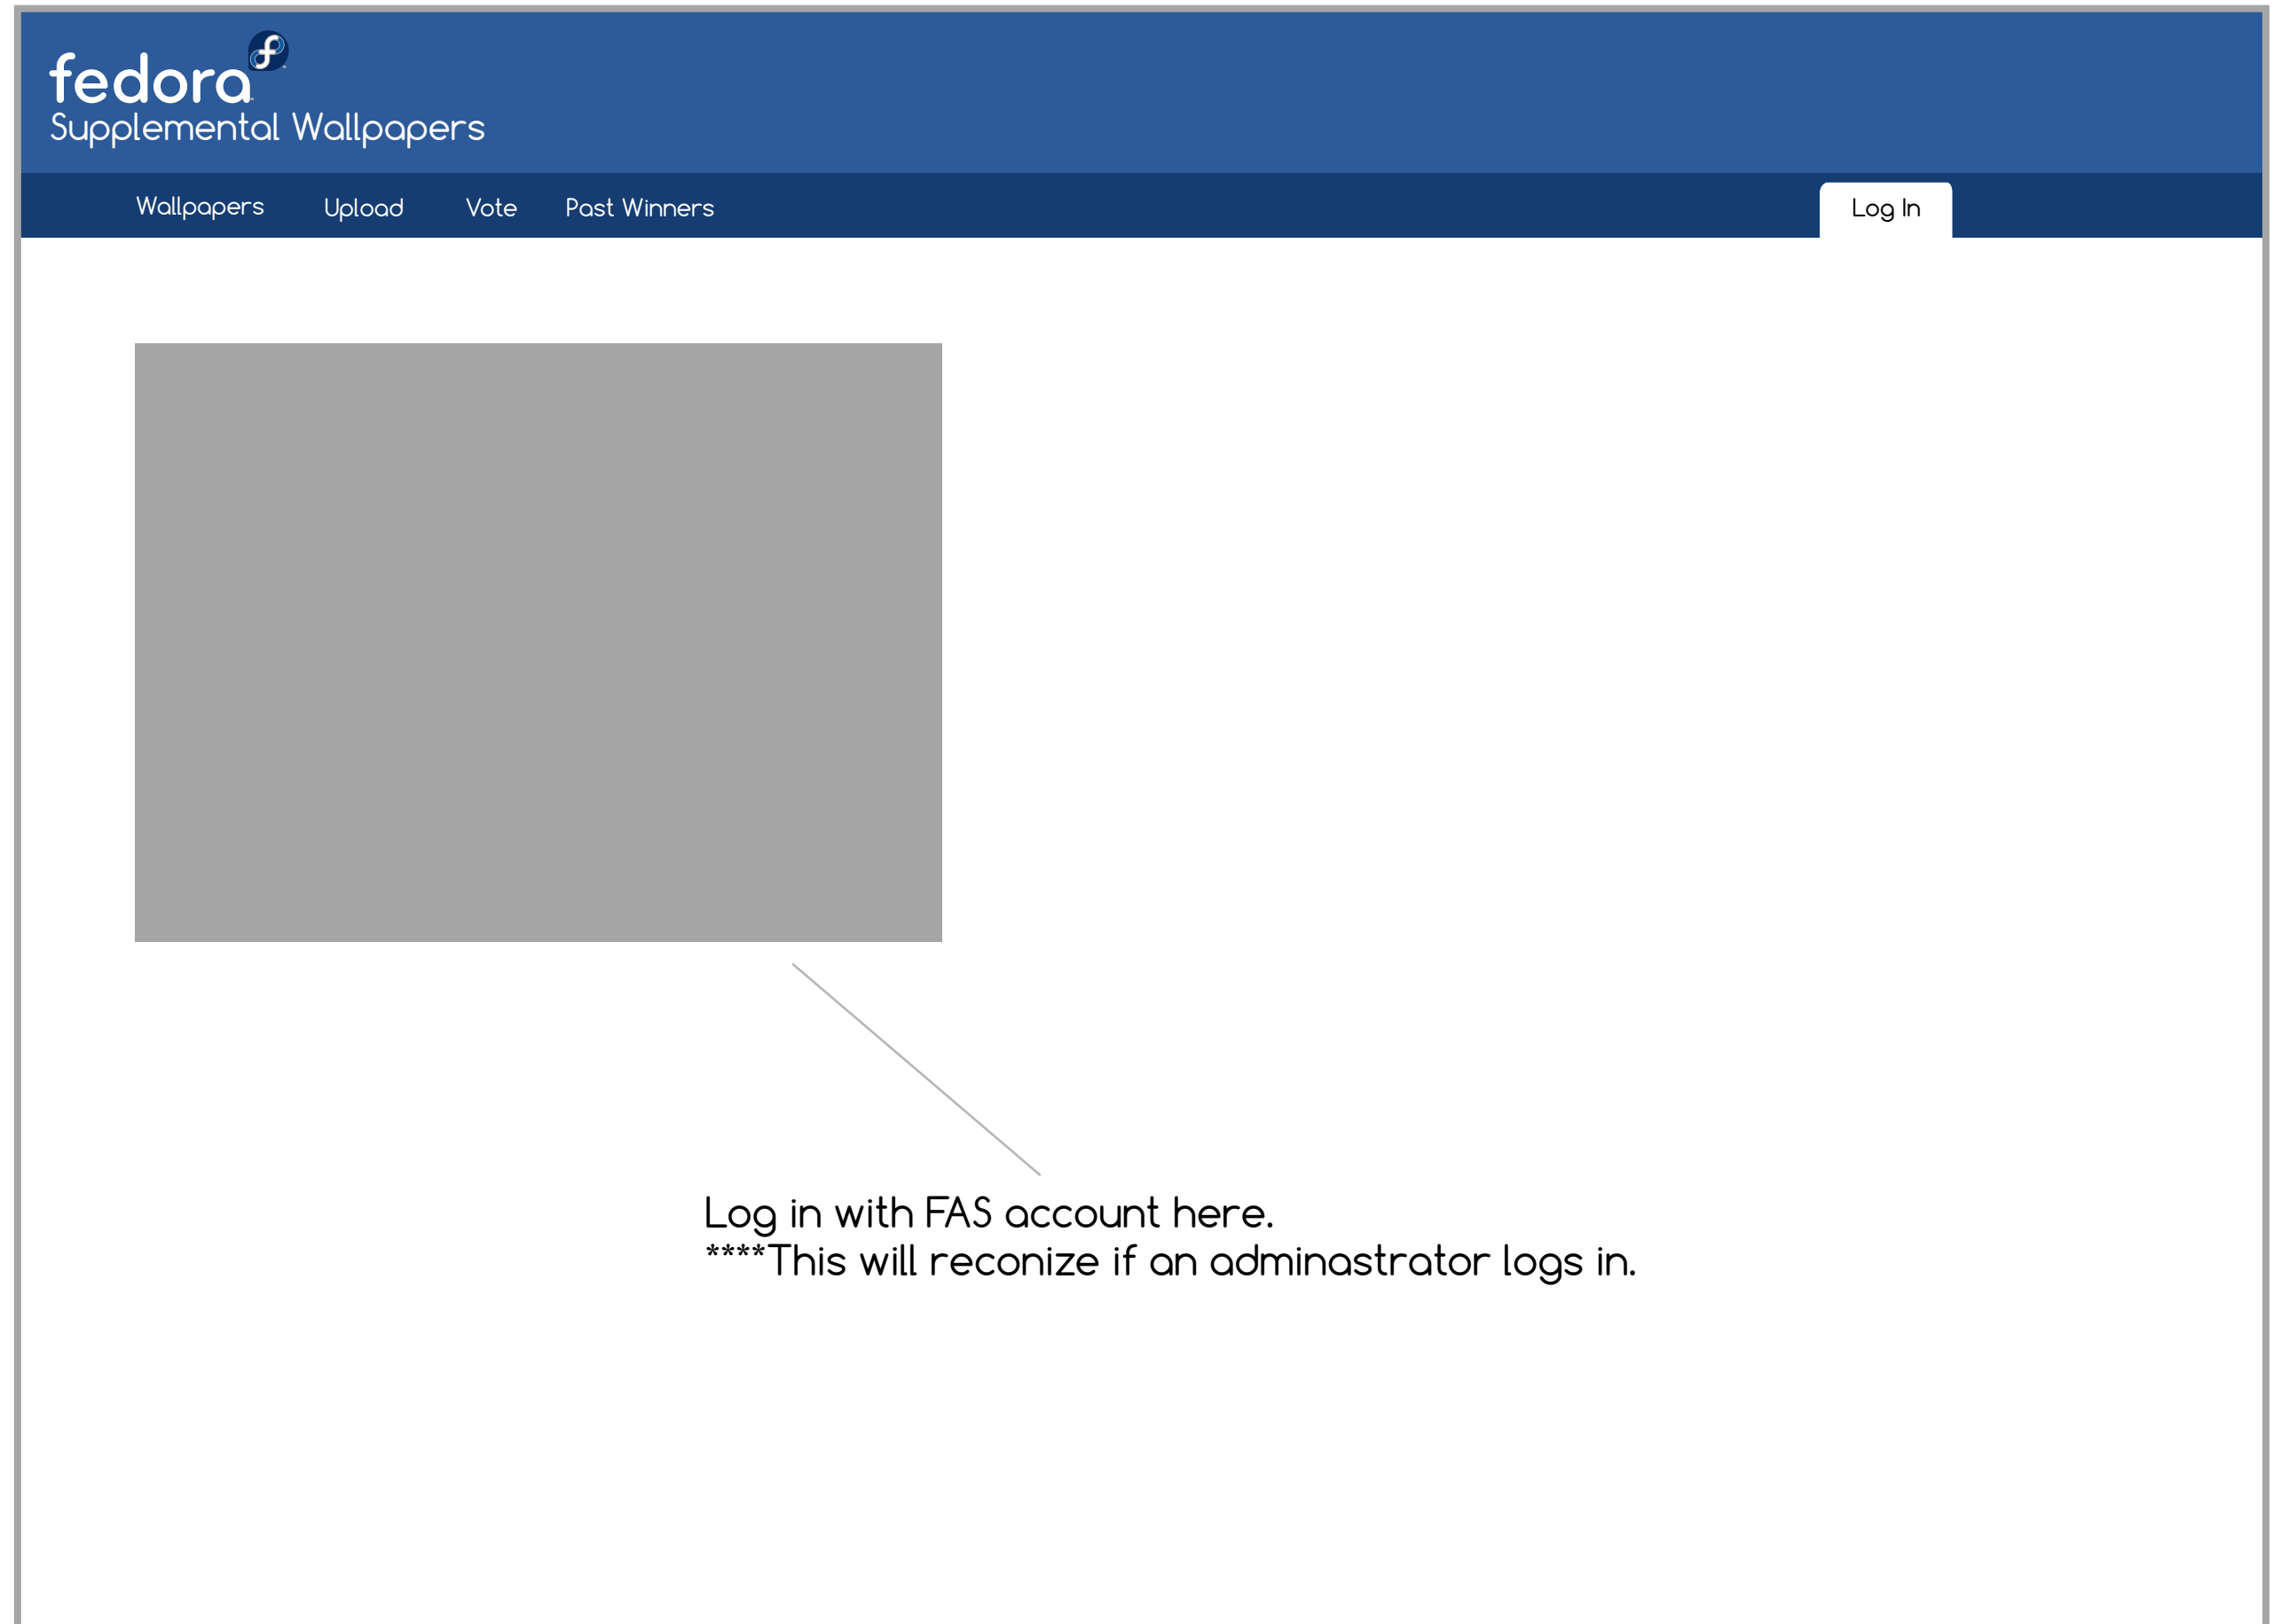

Lets you click between the different uploaded images at full size
