Click on thumbnail images to vote for the ones you like (can only choose five, if click again de-selects)

unselected thumbnail

clicking on the arrow icons will bring the image into full screen

Page 3

Done Voting

Blue dot shows what page you are on.
click on a grey dot to go to that # page

If you have voted fr more than 16 wallpapers, this will take you to the second voting page.

If you have voted for 16 or less, this will finish the voting process, the page wiull refresh and at the top rather than saying "vote for you favorite 16 wallpapers!" it will read "thank you for voting!"

when click on "full size" background cobvered by a transparent dark blue and the image takes over most of the screen. click off of the picture to go back to viewing all of them

Send information about how many times wallpaper has been downloaded to marketing team. (Or maybe a n administrator can just see this info directly on the site)

If Javascript is disabled, you can vote on wallpaper by a checkbox whick will appear in the top right corner of the image thumbnail.

Lets you click between the different uploaded images at full size

Voting page 2

Wallpapers   Upload   Vote   Past Winners   Username

Now eliminate 2!   You have voted for 18 Wallpapers

Tells the user how
many extra wallpapers
they need to get rid of.
(in this case 2)

Should this only be clickable if the user
has chosen 16 or under or should it bring
them to a new screen with the wallpapers
they have currently selected every time?

Will open up an email to the submitter where Admin can explain reason for rejection

Remove

After voting is finished this will become a previous election and will have to go to that page to do the following:
Easily email all the winners. (they need to recieve an email asking for the svg), publish results now button (This will cause the front page will change to having all the winners)

Removing will put flagged submission back into the pending section. An admin may do this because: they flagged the submission by mistake
